

REAR VIEW

Genus Homes adds another single story gem to it's collection—The Lawson. This generously spaced design offers plenty of open concept community space with dining, great room and kitchen all open and looking out to the outdoor covered patio in the rear of the home. The spacious primary suite features a well thought out layout with the main bedroom, bath, a large walk-in-closet and access to the laundry facilities directly off the closet. Brilliant. Open 2-car garage features a half-bath for those quick clean ups and potty breaks .
